

SONAL KANDHWAY

Senior UX / UI Manager • Design Leader • AI-Augmented Design

+91 95994 25492 | kandhwaysonal12@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior UX/UI Manager with 12+ years shaping SaaS and B2B products across fintech, healthcare, and EdTech. Currently lead a team of 5 designers at The Higher Pitch — shipped 8+ products in the last three years and mentored 3–4 designers into senior roles, with design engagements spanning Oracle, MedGenome, and Eldermark. Integrate AI across research, ideation, and delivery — Claude, ChatGPT, Dovetail AI, Galileo AI, Uizard — to compress cycles without compromising craft. HFI-CUA certified (Certified Usability Analyst, Human Factors International) — usability grounded in evidence, not opinion.

SELECTED CLIENTS & PRODUCTS

Oracle <i>Enterprise software</i>	MedGenome <i>Genomics & healthcare</i>	Eldermark <i>Senior-living SaaS</i>

CORE COMPETENCIES

- Product & UX Strategy
- Team Leadership & Mentorship
- User Research & Discovery
- Information Architecture
- Interaction & Visual Design
- Design Systems at Scale
- AI-Augmented Design Workflows
- Cross-Functional Collaboration
- Accessibility & Inclusive Design
- Usability Analysis (HFI-CUA)

TOOLS & PLATFORMS

Figma • Sketch • InVision • Axure RP • Adobe Photoshop • Jira • Miro • Notion

AI in Design: Claude • ChatGPT • Dovetail AI (research synthesis) • Galileo AI & Uizard (concept generation) • Figma AI plugins

PROFESSIONAL EXPERIENCE

Senior UX/UI Manager — The Higher Pitch

Sep 2021 – Present • Noida, India

- Lead a team of 5 designers shipping SaaS and B2B products across fintech, healthcare, and enterprise verticals — 8+ products delivered over three years, including design engagements with Oracle and MedGenome.
- Mentored 3–4 designers into senior roles through structured coaching, critique rituals, and career planning — building a team that ships faster and defends its own decisions.
- Architected a scalable design system that standardises components, interaction patterns, and accessibility rules across multiple product lines — cutting rework and accelerating new-feature delivery.
- Own design end-to-end — from discovery and research through high-fidelity delivery and developer handoff — shaping product vision and UX strategy alongside product and engineering leadership.
- Embed AI tools — Claude, Dovetail AI, Galileo AI, Uizard — into research synthesis, ideation, and concept exploration to compress delivery cycles without diluting senior craft.
- Run regular design reviews and usability evaluations to surface friction before handoff, and champion WCAG accessibility across every shipped experience.

Senior UI/UX Designer — QSS Technosoft

Sep 2018 – Aug 2021 • Noida, India

- Led end-to-end design for multiple SaaS and enterprise products across healthcare and B2B verticals — including design work on Eldermark, a senior-living management platform serving US care facilities.
- Defined user journeys, interaction models, and product requirements in close working sessions with product managers, engineers, and client stakeholders.
- Shaped user flows, interfaces, and prototypes that improved usability and engagement across desktop and mobile experiences.
- Shipped accessibility-aware interfaces aligned with platform UX best practices and client brand systems.

Senior UI Designer — Software Assurance LLC

Apr 2015 – Aug 2018 • Noida, India

- Designed responsive web and mobile SaaS interfaces, templates, and marketing assets for a diverse international client portfolio.
- Ran user research and usability reviews to continuously refine product experience and retention.
- Worked directly with engineering teams to ensure pixel-accurate implementation and frictionless developer handoff.

Web Designer — Intelegencia

Apr 2013 – Dec 2014 • Noida, India

- Designed website layouts, visual assets, and graphic systems across multiple client projects, supporting senior designers and engineering teams on parallel deliveries.

EDUCATION

Diploma in Designing — Arena Animation Academy

Bachelor of Commerce — Vinoba Bhave University
